Knight Architects was commissioned to develop a master plan for the 1st Brigade Barracks complex; the outcome of that effort is illustrated in the plan and perspective drawings below as well as in the built project. Additionally, we worked with the U.S. Army Corps of Engineers' in-house engineering design team to design the Brigade Headquarters building. In addition to providing the preliminary design for the 1st Brigade Master Plan, we also developed the overall architectural thematic approach for the entire complex.
